

Scholarly publications are more important than ever, especially in sustainability, as they help share new ideas, guide real-world solutions, and inspire action. They allow researchers and students to contribute knowledge that can tackle environmental and social challenges, making a meaningful impact on communities and the planet.

Number Of Scholarly Publications On Sustainability

LIST OF RESEARCHES PUBLISHED FROM OCTOBER 2024 TO OCTOBER 2025		
TITLE	SDG	NO. OF AUTHORS
1. Development of Digital Mock Examination System for Aeronautical Engineering Program in WCC-ATC Binalonan	4, 9	1
2. Enhancing Flight Proficiency Through Structured Peer Mentorship: An Evaluation of Student Pilot Performance in Commercial Flying Program	4, 17	4
3. Virtual Reality-Based Helicopter Maintenance Training: An Outcome Assessment of the Student-Developed Robinson R44 Simulation	9, 4	4
4. Cabin VR: Virtual Reality of Interior Navigation of Aircraft Boeing 737	9, 4	4
