

# Ratio of Scholarly Publications on Sustainability to Lecturers and Researchers on Campus in One Year Period

|                                                    |      |
|----------------------------------------------------|------|
| Total Lecturers and Researchers in One Year Period | 18   |
| Total Scholarly Publication in One Year Period     | 24   |
| Ratio of Publication to Lecturers                  | 1.33 |

For this year, there are 18 faculty researchers producing a total of 24 publications. This resulted to a publication-to-researcher ratio of 1.33. This ratio indicates that on average, each faculty researcher contributed to more than one publication for this year. Likewise, it shows the institution's productive research environment and the dedication of faculty members towards knowledge advancement for both academic and sustainability initiatives.
