*From 2022 to 2024, WCC Aeronautical and Technological College – Binalonan Campus recorded a total of 41 graduates employed in sustainability-related or green jobs, showing a positive trend toward environmentally conscious career paths. This increase reflects the institution's growing commitment to integrating sustainability into its academic programs.*

*However, the percentage remains modest due to ongoing challenges in graduate tracing and response rates. Data for 2025 graduates are not yet included, following the Alumni Office policy that tracing begins six months after graduation.*
