

Number of Campus Sites

WCC Aeronautical and Technological College, Inc., Binalonan Campus is located in Barangay Canarvacanan, Binalonan, Pangasinan, Philippines. This serves as the central hub for both academic programs and aviation training operations. The total campus area covers 223,609 square meters, integrating both academic and flight operation facilities. Within this area, the Binalonan Airfield, a 103,521-square-meter open area, features an 850 to 900 meter runway suitable for flight instruction and general aviation activities. The airfield's proximity to academic buildings enables authentic aviation training and hands-on learning in a controlled and secure environment.

Located approximately two kilometers from the Binalonan town proper, the campus ensures convenient access to transportation, commercial establishments, and essential services, while maintaining a focused, safe, and conducive educational environment that supports both academic and technical excellence in aviation education.

The Google Maps view provides the exact coordinates and spatial orientation of the WCC-ATC Binalonan Campus, situated at Barangay Canarvacanan, Binalonan, Pangasinan, Philippines (Approx. Coordinates: 16.0377° N, 120.5951° E). The image shows the runway strip, academic buildings, and training areas surrounded by open agricultural land, emphasizing the campus's blend of technological infrastructure and environmental integration.

Depicts the maintenance hangars and training workshops used for aircraft inspection, repair, and systems testing, conforming to CAAP and ICAO standards for aviation education

Aerial view of the Binalonan Airfield within the WCC-ATC Campus, featuring an 850-900-meter runway used for pilot training and general aviation. The site integrates academic, operational, and technical facilities within a sustainable green landscape.
