

ZERO EMISSION VEHICLES (ZEV) AVAILABILITY ON CAMPUS (TR.3)

At WCC Aeronautical & Technological College, Inc. in the Philippines, a dedicated parking area spans 11,267.09 m², distributed strategically across the campus to serve students, staff, and visitors. This parking space accounts for a ratio of 0.026 of the total campus area, reflecting WCC's efficient use of space to support transportation needs while minimizing the footprint dedicated to parking. Key parking locations include the Gym open parking (2,161.36 m²), Gate 2 open parking (792.77 m²), and additional parking spaces adjacent to significant buildings such as the Main Academic Building (453.81 m²), Residence Hall 4 (461.29 m²), and side areas of Residence Hall 2 and Cabin Hall (1,639.84 m² and 1,816.19 m², respectively). This distributed layout provides accessible parking close to academic, residential, and recreational facilities, accommodating campus mobility while supporting WCC's sustainable space management goals.
